Train-The-Trainer

Certification Course

A trainer is a person responsible for enhancing the skills of others through educational methods. This simple definition is the core reason why trainers need training before conducting a training session. Train-The-Trainer is essential for managers, executives, trainers, instructors, team leaders, and supervisors in any organisation who wish to provide structured training and conduct relevant and fair assessments.

This training programme will assist participants for whom training is a large part of their job or constitutes a full job function within a structured assessment and training system. It aims to help them develop training programmes, deliver, and assess their participants or employees effectively.

At the end of this 5-day-programme, participants will be able to:

- Understand core theories and concepts related to adult learning
- Plan and execute a Training Needs Analysis
- Develop competency based training programme
- Deliver effective training session
- Plan for learning retention assessment

Target Participants

Trainers who want to be PSMB certified as well as enhance their quality and effectiveness in performing training sessions and training related activities.

Note: Due to the practical assessment where each participant is required to conduct a mock up training session, the number per session is limited to 15 persons only
